

LUIS SOSA

Frontend Engineer | Vue.js - React - Angular - TypeScript

4+ Years Experience | Fintech | Payments | SaaS | English C1 | Open to Remote

Mexico City - +52 55 7808 6918 - luis.sosa.4599@gmail.com - [LinkedIn](#) - [GitHub](#) - [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience delivering production systems in fintech, payments, and government sectors. Proficient in Vue.js, Nuxt, React, Angular, and TypeScript, with hands-on backend exposure in Laravel, Node.js, and GraphQL. Led frontend modernization initiatives, built reusable component systems, and owned full project lifecycles from client kickoff to production deployment. Academic background from ESCOM-IPN with a peer-reviewed publication at HCI International 2025. Bilingual Spanish/English (C1), experienced collaborating with distributed international teams.

TECHNICAL SKILLS

Frontend: Vue.js, Nuxt.js, React.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, TailwindCSS

State Management: Vuex, Pinia

UI Libraries: PrimeNG, Design Systems, Component Libraries

Backend: Node.js, Laravel (PHP), Python, Java, C#, REST APIs, GraphQL

Databases: MySQL, SQL Server

Cloud & DevOps: Microsoft Azure, AWS, Docker, Git, GitHub, CI/CD, SSH, Linux

Testing: Jest

Languages: Spanish (Native), English (C1 - Advanced)

PROFESSIONAL EXPERIENCE

Frontend Engineer - OM Payments / Grupo Cumulus

Mexico City | 2025 - Present (hired directly from client engagement at IFD Technologies)

- Led frontend modernization of 4 fintech platforms by centralizing component configuration and standardizing UI patterns, reducing maintenance effort and simplifying future feature development.
- Rebuilt product interfaces from single-screen layouts to fully responsive designs across mobile, tablet, and desktop, enabling a consistent user experience across devices.

Stack: Angular, TypeScript, SCSS, PrimeNG, Design Systems, SQL Server, Azure

Full-Stack Engineer - IFD Technologies Inc.

Remote | 2024 - 2025

- Solely owned a client engagement end-to-end (requirements, architecture, development, and delivery), translating technical decisions into clear business language for direct client communication throughout.
- Delivered on schedule across 5 simultaneous client accounts while adapting to evolving business requirements.
- Participated in client-facing kickoff meetings, weekly sprint reviews, and feature scoping sessions across all accounts.

Stack: React, TailwindCSS, Laravel, REST APIs, GraphQL, Docker, AWS

Software Engineer - Cantilever

Mexico City | 2023 - 2024

- Proactively introduced unit testing (Jest) on a Vue 2 legacy codebase past its LTS, safeguarding data integrity for utility meter readings and billing calculations across CFE government systems.
- Delivered frontend modules and features under strict public procurement deadlines for Mexico's national electric utility (CFE).
- Co-author of ICE Management 2.0, officially registered with INDAUTOR - Registro No. 03-2025-112411030100-01.

Stack: Vue.js, Nuxt, Vuex, GraphQL, Docker, AWS, Jest, SSH

Junior Developer - Teleurban

Mexico City | 2022 - 2023

- Developed and maintained internal business applications supporting operational workflows across multiple departments.
- Collaborated with senior engineers on feature implementation, debugging, and system maintenance.

Stack: Python, C#, Java, PHP

SELECTED ACHIEVEMENTS

- Co-author of INDAUTOR-registered software - ICE Management 2.0 - Reg. 03-2025-112411030100-01
- Peer-reviewed publication - HCI International 2025 - International Journal of Human-Computer Interaction - Computer Vision System for Missing Pet Identification
- Led modernization of 4 production fintech platforms handling real financial transactions
- Hired directly by a client after demonstrating end-to-end project ownership at IFD Technologies

EDUCATION

B.Sc. in Computer Systems Engineering - Escuela Superior de Computo (ESCOM), IPN - 2018 - 2024
